

Professional Opportunity available for
Business Manager - Environmental Services

Chinook Environmental Services Ltd., based in **Red Deer, Alberta**, announces a position available for immediate occupancy as a **business manager**.

Background / Assets required:

*Post-Secondary Education, with relevance towards Environmental Services & Operations.

*Experience (> 5yrs) and familiarity with oilfield operations, particularly drilling waste management, and Alberta Directive-050 / Saskatchewan SL-9901.

*Living within or in close proximity to Red Deer, Alberta
Completely fluent in English (spoken, written)

*Excellent technological skills
Well-developed communication skills

*An uncompromised drive to customer satisfaction, regulatory compliance and premiere corporate image.

*An interest in gaining fuller business insight and the multiple tasks & roles associated with running a business.

Duties:

You will handle most facets of day-to-day operations of the Environmental Services Company, particularly logistics (order receipt, project implementation & supervision, field supervisor management, training, conflict resolution, report reviews, overall safety logistics, etc.).

Your focus on business growth through stable and consistently superb project performance and customer service are utmost importance. Replying to customer orders and inquiries immediately or as quickly as possible are key to maintaining a strong brand image.

Terms of employment will be further discussed at time of interview, including:

-Starting Salary: \$60,000 - \$100,000 / yr.

-Profit-sharing, expense account.

-Subcontract vs. Employee arrangement.

-Time, hrs, and dates of in-office work.

-On-call designation(s).

Scheduled and non-scheduled field operations & visits.

-Possible long-term part-ownership potential.
